

Sleep now

Open with a hook:

Sleep now...

Verse 1 (Female soloist)

When I went and asked my parents
For a brand new bike.
Cos I dreamt of using presents
To go where I like.

When I saw its spinning wheels,
Raring to go.
Put my feet down on the pedals,
Where should I go?

Cos now we all cycle
And now we all cycle
Around where I call home.

But now we all cycle
And now we all cycle
Around where I call home.

Bridge

Today was a day you did ten thousand things,
No time to waste, you need to be stayin'
Awake
Awake

Today was a day you discovered the place,
Today was a day you decided to stay
Awake
Awake

Chorus

Sleep now, another day is over;
Sleep now, dream and disappear.
Sleep now, wake up one day older.
Sleep now, the world will still be here.

Verse 2 (Male soloist)

When you get your driver's license
You're free as a bird.
And you seek out new horizons.
All over the world

When you get your driver's license
You hit the road,
Do you drive too fast to notice
You're getting old.

But now we all cycle
And now we all cycle
Around where I call home.

But now we all cycle
And now we all cycle
Around where I call home.

Bridge

Today was the day you knew not to retreat.
So much to do and to see, need to be
Awake
Awake.

And all of the years you've got left to explore,
No slowing down now, you couldn't be more
Awake
Awake

Chorus

Sleep now, another day is over;
Sleep now, dream and disappear.
Sleep now, wake up one day older.
Sleep now, the world will still be here.

Today was the day you learnt ridin' a bike
Tonight is the night but you're lyin' wide
Awake
Awake

Tonight is the night, and you can't close your eyes -
How can you sleep, when your mind's feeling wide
Awake
Awake

Post-chorus (Bonus track)

Wakin' up at dawn tomorrow,
Make the most of all my time,
Gonna learn and know,
Gonna take it slow,
Come and go and change and grow.

Wakin' up at dawn tomorrow,
And every day until I die.
Gonna make more plans.
Gonna ride to France,
You can change the world with a helping hand.

Final Chorus

But,

Sleep now, another day is over;
Sleep now, dream and disappear.
Sleep now, wake up one day older.
Sleep now, the world will still be here.

Chorus (*Niki Minaj - conquer, to thrive*)

I sleep so you can wake up in the morning,
I sleep so you can dream.
I sleep so I can do whatever the day brings,
I sleep so I can be me.
